

New developments in Nevada's COVID-19 response

We are excited to share several new developments in Nevada's COVID-19 response.

1 - Vaccination call center

The Nevada Department of Health and Human Services (DHHS) launched a vaccination call center to answer questions and assist people with making appointments. The call center is open from 8 a.m. to 8 p.m. seven days a week and you can reach them at 1-800-401-0946.

2 – Transportation assistance for the COVID-19 vaccine

If you do not have access to transportation to receive your vaccination, Nevada Medicaid is offering Medicaid recipients a [transportation service](#) (link here) with a variety of options including gas mileage reimbursement, bank card funding to take the bus, and, in most instances, same-day rides from ride services. Information is available in English and Spanish under Appointment Resources or by calling 1-844-879-7341.

3 – Stay apprised of COVID-19 data updates

DHHS office of Analytics has added a dashboard tab to provide weekly immunization numbers. This page includes total doses reported as administered in Nevada WebIZ, total vaccinations reported as initiated and total vaccinations reported as completed. Here is a [link to the COVID-19 dashboard](#)
